ATTORNEY B. B. WATTS DIES VERY SUDDENLY

B. B. Watts, age 47, widely known Wayne county attorney, died at his home in Kenova Friday afternoon from heart trouble, the result of chronic asthma.

DR. CLAUDE BURTON GRADUATED AT BALTIMORE

Claude C. Burton is one of this year's graduates of University of Maryland Medical Department, Baltimore. Dr. Burton is a native of Louisa and a graduate of the Louisa high school and the Scientific Department of the Kentucky Normal College. In college he is very popular with both his classmates and professors. Dr. Burton is to be congratulated upon his success and achievement. The medical course of today is quite different from the past. With the many new theories and discoveries concerning the medical profession, and the addition of new subjects, the course is much longer and more difficult to master.

Dr. Burton was fortunate in choosing the University of Maryland. Baltimore is the "hub" of medical knowledge. The University of Maryland is one of the oldest foundations for medical education in America, having been established for more than a century. It has always been a leading medical college especially prominent throughout the south but respectfully recognized throughout the country.

The commencement exercises were held at the Lyric theater June 1.

## Louisville Business Men to Bring World War General Here With Them

When Louisville business men come to this city on their Heads of Houses excursion into the Cumberland mountain section, June 7 to 11, they will bring with them, General Charles P. Sumner, who commanded the famous First Division of the United States Army in the final Argonne drive, which broke the German lines and won the world war. They will also have with them a military band.

The visitors will travel on a special train composed of five Pullmans, two diners, observation car and baggage car. There will be 125 persons in the party.

In every city they visit, it is expected, the Mayor or commercial club will name a reception committee to meet them when the train arrives, and will select a speaker to deliver an address of welcome, to which a member of the Louisville party will respond. A place for holding the reception will also be selected.

The Heads of Houses, it is stated, come as representatives of the Louisville Board of Trade and of wholesale and industrial interests that do an annual business of almost one billion dollars.

Says President Joseph Burge, of the Board of Trade: "Louisville Board of Trade manufacturers and wholesalers are always very happy to get into the Cumberland

mountain cities. There is no place where on previous trips we have been received more graciously and where we have had a better time.

"We like the people, we like the scenery and we like the many evidences of progress we see on every side."

"No section of the country we truly feel has a brighter future than the Cumberland mountain section of Kentucky and Virginia. The way you are developing your marvelous resources of coal and timber and oil augurs wonderful things for the future. The rapid construction of highways and of other means of transportation is hastening that day.

"Louisville during recent years has come more and more to appreciate the marvelous possibilities of the mountain section and our development tours have probably taken us in recent years just as often there as to any other part of the country.

"And last year when members of the Louisville Board of Trade authorized a fund of \$25,000 and used the money subscribed to send State and Government experts in the solution of problems of rural life to conduct Farmers' Community meetings in forty-two sections, the Cumberland mountain section was one of the first remembered.

"We look forward with unusual enthusiasm to our coming tour of the mountains."

## World's Oil Resources

Drifting Into British Hands, President Advises Congress.

Washington.—Interest of the United States in the race for the oil supply of the world, as embodied in the report of the State Department submitted by President Wilson to the Senate, has arisen from the alarming depletion of oil reserves in the United States.

While this country contributes 69 per cent of the oil supply of the world, 40 per cent of its producing fields have been exhausted, and, according to official estimates, oil reserves remaining in the United States are not expected to last 20 years.

Of the reserve in this country foreign interests control but 4 per cent, despite the fact that the United States is the only oil producing country in which citizens and foreigners are permitted to participate in oil production on equal terms.

In the face of this "open door" oil policy pursued in this country, officials said, American interests are excluded in Australia, Barbadoes, British East Africa, British Guiana, Burma, Dutch East Indies, Egypt, France, Algeria, India, Japan, Mesopotamia, Palestine, Persia, Trinidad and the United Kingdom.

In Mexico, which ranks second in oil production in the world, and thereby controls the "balance of power," according to official estimates, American concerns hold controlling interests in 60 per cent of producing fields.

Potential interests of the British, however, have shown a steady increase throughout the world since 1914. At the beginning of the war British control was estimated at only 2 per cent, while today the British Admiralty is said to reckon it at 58 per cent.

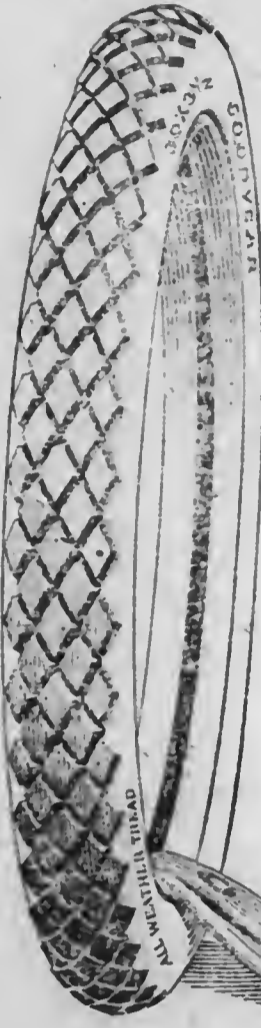

President Wilson promptly vetoed the unconstitutional peace resolution passed by Congress, and an effort to re-pass it over his veto failed.

### GRIFFITH CREEK

The memorial service held at the Franklin graveyard Sunday was very largely attended. Rev. W. D. See of Kenova, W. Va., assisted the local ministry in a very able way. Rev. H. W. Lambert and Rev. E. W. Lambert each preached very able sermons. The service was dedicated to the lives of our deceased neighbors, Charley Sammons and wife, Mary Coburn Sammons, who each answered the final call during the past winter. Born Sunday to Mr. and Mrs. Herbert LeMaster, an eight-pound daughter—Eleanor Christine. The Collinsworth Lumber Co. on the McClure tract is getting their big job under way. They are, we are told, planning on trying tractors for the haul to Chapman. One tractor of the caterpillar type is soon to be put on the road, and if it proves a success others will be bought. Shirley Miller, of Ledoclo, spent Saturday and Sunday here the guest of relatives. U. G. Sammons transacted business in Louisa Friday. James Walker lost a very valuable Jersey cow from falling into an iron ore pit one day last week. After a very backward spring farmers are getting their work well under way. Potatoes and in fact everything looks fine. The late frost cut the strawberry crop. Owing to the slump in tobacco prices, there will not be as large crop of the weed as was at first planned. C. Victor Back left Tuesday for War Eagle where he has been working for the past year.

## Louisville Greets Louisa

**L**OUISVILLE, gateway of the South and the first city in industrial importance south of the Ohio and Potomac rivers, appreciates the marvelous progress of the Cumberland mountain section, both in Kentucky and Virginia.

Louisville knows of your immense development of your resources of coal and oil and timber. It feels there is quite a bit of truth in a mountain-man's declaration that "the time has come when the tail is going to wag the dog."

But aside from your material advancement, Louisville has a blood interest in the Cumberland mountain section, because a large part of Louisville's population is descended from old Virginian stock that came "through the Gap" into Kentucky.

So representatives of Louisville's 1,200 wholesale houses, who last year did a business of \$750,000,000 and of Louisville factories, which last year turned out products valued at \$20,000,000, are planning to visit your city on their Cumberland Mountain Trade Excursion, of June 7 to 11.

They'll bring with them, as guests, Major General Charles P. Summerall, who commanded the World Famous First Division in France during the great war and who is now stationed at Camp Zachary Taylor; also interesting speakers and a military band.

Louisville wants to make new acquaintances and to renew old; to hear some of your problems and to tell you some of hers; to work with you for the mutual development of "our own people."

Good luck to you, we shall see you soon!

## Louisville Board of Trade Heads of Houses' Special Train

ARRIVES AT LOUISA,  
JUNE 9th, 6:10 P. M.

Lincoln, who is wealthy, has spent nearly half a million of his own money in trying to get the nomination. The most amusing thing in connection with the investigation is the frantic efforts of Jim Reed, the sore-head Democrat, to disclose a McAdoo organization. He has found a McAdoo boom, but can not locate head or tail of it. All he has learned is that McAdoo is not a candidate, has no organization, has spent no money. The boom is voluntary and unorganized—and therefore the most dangerous to other candidates.

The Republican National convention at Chicago next week probably will nominate Lowden, the wealthy Governor of Illinois, for President. Senator Eli Johnson has the most instructed votes, but he does not suit the party leaders, who feel sure they could not control him if he became president.

The U. S. Supreme Court has decided that states having referendum laws can not use them on amendments to the constitution. This settles the prohibition and woman suffrage laws, which the wets were trying to delay or defeat by voting on again under referendum laws, such as Ohio has.

Col. Proctor makes good soap and a lot of money out of putting carcasses and lye, and now he is trying to make a President out of Wood.

"The nigger in that Wood pile" turned out to be half a million of Col. Proctor's tainted dollars, gathered in the malodorous atmosphere of a certain soap factory near Cincinnati.

If Col. Proctor doesn't run out of soap grease he expects to make a President out of Wood.

Franklin K. Lane said recently that the present Congress is composed of "some statesmen who are politicians and some politicians who are not statesmen." And that impotent body is making an alarming effort to verify his description.

The lower House of Congress voted overwhelmingly last Saturday to pay a bonus of nearly two billions of dollars to soldiers in the late war; this enormous sum to be raised by increasing taxes. The matter is now up to the Senate and the public will await the result with much anxiety.

The Senate recently started an investigation of expenditures by and for the presidential candidates, and some interesting facts have been brought out. Col. Wm. Proctor, the soap maker of Cincinnati, admitted putting up \$521,000.00 for General Wood, the Republican military candidate. This amount was increased by others to more than a million. Gov. Lowden, of

## HORROR OF CALOMEL

You Don't Need to Sicken, Grip, or Malivate Yourself to Start Liver.

You're bilious, sluggish, constipated. You feel headachy, your stomach may be sour, your breath bad, your skin sallow and you believe you need vile, dangerous calomel to start liver and bowels.

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and unwell. Don't lose a day. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling splendid. It's perfectly harmless, so give it to your children any time. It can't salivate.

## Louisville Greets Louisa

**L**OUISVILLE, gateway of the South and the first city in industrial importance south of the Ohio and Potomac rivers, appreciates the marvelous progress of the Cumberland mountain section, both in Kentucky and Virginia.

Louisville knows of your immense development of your resources of coal and oil and timber. It feels there is quite a bit of truth in a mountain-man's declaration that "the time has come when the tail is going to wag the dog."

But aside from your material advancement, Louisville has a blood interest in the Cumberland mountain section, because a large part of Louisville's population is descended from old Virginian stock that came "through the Gap" into Kentucky.

So representatives of Louisville's 1,200 wholesale houses, who last year did a business of \$750,000,000 and of Louisville factories, which last year turned out products valued at \$20,000,000, are planning to visit your city on their Cumberland Mountain Trade Excursion, of June 7 to 11.

They'll bring with them, as guests, Major General Charles P. Summerall, who commanded the World Famous First Division in France during the great war and who is now stationed at Camp Zachary Taylor; also interesting speakers and a military band.

Louisville wants to make new acquaintances and to renew old; to hear some of your problems and to tell you some of hers; to work with you for the mutual development of "our own people."

Good luck to you, we shall see you soon!

Friday, June 4, 1920.

Col. Proctor makes good soap and a lot of money out of putting off car-casses and lye, and now he is trying to make a President out of Wood.

"The nigger in that Wood pile" turned out to be half a million of Col. Proctor's tainted dollars, gathered in the malodorous atmosphere of a certain soap factory near Cincinnati.

If Col. Proctor doesn't run out of soap grease he expects to make a President out of Wood.

Franklin K. Lane said recently that the present Congress is composed of "some statesmen who are politicians and some politicians who are not statesmen." And that impudent body is making an alarming effort to verify his description.

The lower House of Congress voted overwhelmingly last Saturday to pay a bonus of nearly two billions of dollars to soldiers in the late war; this enormous sum to be raised by increasing taxes. The matter is now up to the Senate and the public will await the result with much anxiety.

The Senate recently started an investigation of expenditures by and for the presidential candidates, and some interesting facts have been brought out. Col. Wm. Proctor, the soap maker of Cincinnati, admitted putting up \$521,000.00 for General Wood, the Republican military candidate. This amount was increased by others to more than a million. Gov. Lowden, of

Illinois, who is wealthy, has spent nearly half a million of his own money in trying to get the nomination.

The most amusing thing in connection with the investigation is the frantic efforts of Jim Reed, the so-called Democrat, to disclose a McAdoo organization. He has found a "McAdoo boom," but can not locate headquarters of it. All he has learned is that McAdoo is not a candidate, has no organization, has spent no money. The boom is voluntary and unorganized—and therefore the most dangerous to other candidates.

The Republican National convention at Chicago next week probably will nominate Lowden, the wealthy Governor of Illinois, for President. Senator Eli Johnson has the most instructed votes, but he does not suit the party leaders, who feel sure they could not control him if he became president.

The U. S. Supreme Court has decided that states having referendum laws can not use them on amendments to the constitution. This settles the prohibition and woman suffrage laws, which the wets were trying to delay or defeat by voting on again under referendum laws, such as Ohio has.

## DODSON TELLS THE HORROR OF CALOMEL

You Don't Need to Sicken, Grip, or Salivate Yourself to Start Liver.

You're bilious, sluggish, constipated. You feel headachy, your stomach may be sour, your breath bad, your skin sallow and you believe you need vile, dangerous calomel to start liver and bowels.

Here's my guarantee. Ask your druggist for a bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling splendid. It is perfectly harmless, so give it to your children any time. It can't mislead.

## Exclusive Furnishing Store at Wayne For Sale

On account of my poor health and consequent inability to continue my business in Wayne, W. Va., I have decided to dispose of THE SPECIALTY SHOP.

This store, which is located just opposite the court house on the best business block in Wayne, was established less than six months ago. The stock consists of one of the strongest lines of shoes, hats and men's and woman's furnishings that has ever been offered in Wayne county. Every item was carefully selected and was purchased at figures much lower than the prevailing market prices today.

The stock is fresh and clean, no left-overs or odds and ends, ideally located and the business is already established and well underway. Frankly, it is a money machine for the right party. Were it not for my poor state of health the business could not be bought at any price. But I have been confined to my room for more than two months and cannot hope to sufficiently recover to again assume the management of the business.

The stock will invoice about \$11,000. Interested responsible parties will find the terms exceedingly reasonable. Based on my thirty years experience in mercantile business, I unqualifiedly state that this is one of the best money making opportunities that I have ever seen. THE SPECIALTY SHOP will not be for sale long for there are too many sound business men who will appreciate the worth of this opportunity; so I suggest that if you are interested you get in touch with me at the earliest possible date.

## Exclusive Furnishing Store at Wayne For Sale

On account of my poor health and consequent inability to continue my business in Wayne, W. Va., I have decided to dispose of the SPECIALTY SHOP.

This store, which is located just opposite the court house on the best business block in Wayne, was established less than six months ago. The stock consists of one of the strongest lines of shoes, hats and men's and women's furnishings that has ever been offered in Wayne county. Every item was carefully selected and was purchased at figures much lower than the prevailing market prices today.

The stock is fresh and clean, no left-overs or odds and ends, ideally located and the business is already established and well underway. Frankly, it is a money machine for the right party. Were it not for my poor state of health the business could not be bought at any price. But I have been confined to my room for more than two months and cannot hope to sufficiently recover to again assume the management of the business.

The stock will invoice about \$11,000. Interested responsible parties will find the terms exceedingly reasonable. Based on my thirty years experience in mercantile business, I unqualifiedly state that this is one of the best money making opportunities that I have ever seen. THE SPECIALTY SHOP will not be for sale long for there are too many sound business men who will appreciate the worth of this opportunity; so I suggest that if you are interested you get in touch with me at the earliest possible date.

Byron Dean, Wayne, W. Va.

# DOWN! DOWN!

## NOTICE!

Hundreds of more items to mention but it is impossible in the space we have. Everybody join the campaign and let's knock the high prices, regardless of some people kicking about it.

# DOWN!!

## ATTENTION!

Every item will be marked in plain figures, positively one price to all. That is the lowest price. No goods taken out on approval and no goods exchanged after 24 hours in town and 48 hours out of town.

# GO THE PRICES!!

Suppose you noticed the newspapers advertising 20 per cent reduction in merchandise. It looks big but if you realize the fact that there was a lot of profiteering and when they give you 20 per cent off that means still a large profit but when Jake gives you 20 per cent off that means his entire profit. Now the manufacturers are not cutting the prices, but you know Jake always takes a crazy spell and cuts the prices and within thirty days from now I will pay more. So my advice to you is for everybody to join in this campaign and come and save your hard-earned dollars which you have long been waiting for.

This may be my last sale in Louisa, as I must take possession of my Huntington store June 25th, and if I cannot make arrangements with some one to take charge of the store there, I must go to it myself, but if there is a possible chance to arrange for some one to take that place I will not leave Louisa.

Bear in mind that this is the most sensational price-cutting event I have ever attempted. All goods offered are genuine bargains, such as you have never seen in these days of high prices. Read my price list and judge for yourself. Be sure and attend this sale. Remember Saturday, June 19th, is the last day. Enough said.

## "A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gedd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic.

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists.

## Sure Death to Corns

"Geta-It" Makes 'Em Lose Their Grip and Lift Off Painlessly.

The first thing "Geta-It" does when it lands on a corn or callus is to send out the pain. Then it shrivels the corn or callus and loosens it.

"Geta-It" spells "Grip" for Corns. Soon, it is almost ready to fall off. You help it just a little by lifting it off with thumb and finger. You don't even feel it, because there is no hurt left in it. Millions have proved it the cleanest, surest, safest and most pleasant method. "Geta-It" is the never-failing, guaranteed money-back corn remover. Get a trial at any drug store. Sold by E. Lawrence & Co., Chicago. Sold in Louisa and recommended as the world's best corn remedy by Louisa Drug Co.

What's become of the prejudice against automobiles because they frightened the horses

**N**OW cars are everywhere. The horses have gotten used to them—and so has everybody else. Think of it! This year the American people will spend nearly a billion dollars on tires alone.

Tires are one of the biggest items on the car owner's bills.

Hardly a Saturday, when you motorists drop in to "tune up" for a Sunday trip, that one or more of you doesn't tell us something of value to our business. Sooner or later it comes back to you in Service.

Service is what the car owners of this community are looking for nowadays.

And especially the small car owners, who put service

first in figuring their motoring expenditures.

III

Just because a man has a moderate-price car is no reason why he should get any less service out of his tires.

We believe that the man with the small car is entitled to just as good tire service as the man with the big car—and both are entitled to the best tire service they can get.

That's why we represent U. S. Tires in this community.

And why more car owners—large and small—are coming to us every day for U. S. Tires.

IV

Come in and talk to us about tires. We're here to help you get the kind of tires you want.
